

# Helpful Tips on Analytics

## Loans - Linked from other Institution column

The Loans - Linked from other Institution column is available in the Fulfillment subject area of Analytics. This is a helpful column that can be used to find Automated Fulfillment Network (AFN) / Consortium Loan Service (CLS) loans.

Please take note that since the column "Loans - Linked from other Institution" was first introduced to Alma in March 2021, the data is not available for older loans and, therefore, also not available in Analytics (as documented in Salesforce case #08435995).
