

Add Optical Character Recognition (OCR) to a PDF using the Plustek Book Pavilion

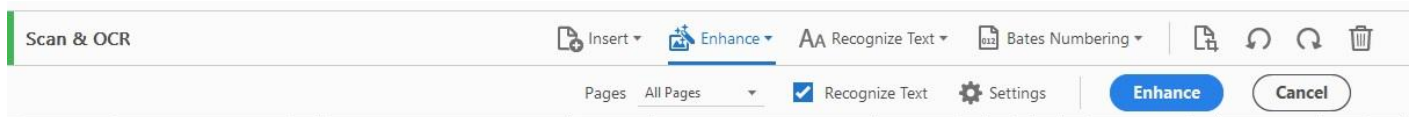

Plustek Book Pavilion:

Application: Plustek OCR (click in the drop-down menu)

This will automatically add OCR when you click transfer after the scan is completed.

There is another option but it will take a while:

- Scan article as normal
- Click Transfer
- Open File in Adobe Acrobat
- Go to the column on the right side and click “Scan & OCR”
- Go to the new bar at the top (Row that says “Scan & OCR”)
- Click “Enhance”
- Click “Scanned Document”
- Make sure the drop-down “Pages” says “All Pages” and that “Recognize text” is checked.

- Click “Enhance”
- Exit out of document
- Click “Yes” when it asks to save document
- Upload document to email/Alma

Revision #2
